Division Description

The mission of the Idaho State Department of Agriculture is to guarantee that Idaho agricultural products are of high quality, disease-free, and meet federal and state laws, rules, and regulations. The department protects consumers and producers from fraud and provides marketing assistance to the industry. There are eight budgeted programs: 1) The Administration Program coordinates the accounting, payroll, legal, and personnel functions; 2) Animal Industries is responsible for veterinary services, range management, dairy laboratory and dairy inspection, animal laboratory, livestock inspection, egg inspection, and animal waste management (Title 25, Idaho Code); 3) Agricultural Resources protects the public health, environment, livestock, and wildlife of the state from possible adverse effects resulting from the improper use of pesticides and fertilizers (Title 22, Idaho Code); 4) Plant Industries includes the plant, fertilizer, and seed laboratories and programs, noxious weeds, the Honey Commission, and the Invasive Species Program (Titles 22 and 25, Idaho Code); 5) Agricultural Inspections includes the Bureau of Shipping Point Inspections, the Bureau of Warehouse Control, the Retail Potato Program, Hops Program, Organic Foods Program, and the Bureau of Weights and Measures (Titles 37. 69, and 71, Idaho Code); 6) The Marketing and Development Program assists Idaho food producers to increase their profitability by enhancing the marketing opportunities for their products (Chapter 29, Title 49, Idaho Code, an Chaper 14, Title 57, Idaho Code); 7) The United States Department of Agriculture's Animal and Plant Health Inspection Service, Wildlife Services Program operates in Idaho under a memorandum of understanding with the Idaho State Animal Damage Control Board (Titles 22, and 25, Idaho Code); 8) The Sheep and Goat Health Board provides a comprehensive program involving disease and predator control. The program enables the sheep and goat industries to maintain high production standards and economic returns (Title 25, Idaho Code).

Department of Agriculture Organizational Chart

Part I - Agency Profile

Agency Overview

The Idaho Legislature created the Idaho State Department of Agriculture (ISDA) in 1919 to assist and regulate the state's fast-growing agricultural industry. The primary purposes for establishment were to protect Idaho's crops and livestock from the introduction and spread of pests and transmittable diseases, to help provide the industry with a system for the orderly marketing of agricultural commodities, and to protect consumers from contaminated products or fraudulent marketing practices. These purposes still drive the department today.

The department derives its statutory authority from multiple sections of the Idaho Code. Section 22-101 creates the Department of Agriculture and the position of director. Section 22-102 provides that the director "shall organize the department into such divisions and other administrative sub-units as may be necessary in order to efficiently administer the department," and section 22-103 lists specific directorial duties. Title 22 also contains the authority for the Plant Industries Division, the Agricultural Resources Division, and the department's Marketing Bureau. The primary authority for the Animal Industries Division lies within Title 25 and Title 37, while the Agricultural Inspections Division, which includes the Bureaus of Weights and Measures and Bonded Warehouse, derives authority from Titles 69 and 71.

In addition to the five divisions which primarily make up the ISDA, four commodity commissions—the Idaho Honey Advertising Commission, Idaho Hop Commission, Idaho Mint Commission and Idaho Sheep and Goat Health Board—are also technically housed within the ISDA, although each entity maintains its autonomy. The department works closely with all other agriculture commodity commissions. The Idaho Food Quality Assurance Laboratory was assigned by the Idaho Legislature to the Department of Agriculture on July 1, 2005. The ISDA Bureau of Laboratories was established within the agency in 2015 to manage all six ISDA laboratories.

The Idaho State Department of Agriculture has a current budget of approximately \$48 million. For FY2021, the state general fund accounts for 25 percent of the budget. The remainder of the department's funding comes from various types of fees assessed directly to the segment of industry being regulated or receiving services. Federal sources also assist the department with the funding of certain programs. The department is currently staffed with approximately 300 full-time employees. The Bureau of Shipping Point Inspection and other units of the department also hire hundreds of seasonal employees each year.

Idaho agriculture has been the engine of our state's economy, and the department embraces each new opportunity and stands ready to provide leadership.

Core Functions/Idaho Code

- Animal Health: Responsible for regulatory animal disease control and prevention programs through the
 inspection and investigation of livestock and livestock facilities; and the regulation of movement of animals
 in intrastate, interstate and into international commerce.
- Plant Health: Responsible for the registration and inspection of commercial feed, fertilizer and soil and
 plant amendments; export certifications; pest exclusion; control of grasshoppers and Mormon crickets;
 prevention and control of noxious weeds and invasive species.
- Inspection Services: Inspect commodities for quality and condition at the shipping point, using official
 grade standards developed by the United States Department of Agriculture (USDA) and ISDA for fresh
 fruits and vegetables. Also inspect and certify organic operations, all weighing devices and licensed
 warehouses.
- **Pesticide:** Regulate the use and distribution of pesticides through inspections and investigations; registration of pesticides; monitoring of ground and surface water for pesticides; disposal of unusable pesticides; inspection of chemigation systems; training of pesticide trainers, handlers and workers; and licensing and training of certified pesticide applicators and chemigators.

Market Development: Market and promote Idaho food, beverage and agriculture companies and products
to increase sales and economic sustainability. the division conducts both domestic and international
programs providing direct assistance to farmers, ranchers, shippers, and processors in establishing new
customers for their products, increasing sales and stimulating growth of Idaho's economy.

¹ The Sheep and Goat Health Board collected this data for FY2017.

Failure to become licensed is due to failure to pass competency exams, non-payment and/or failure to provide proof of insurance (as required for professional applicators only).

Number of applicants refused renewal because they did not submit renewal documents within 12-months of previous licenses expiration date, non-payment and/or failure to provide proof of insurance (as required for professional applicators only).

Previous consumer awareness studies were conducted with federal funding. The grant requirements have changed and the study has not been conducted recently. ISDA is currently looking at the cost and feasibility of conducting a study through other means.

The Governor recommends a onetime General Fund appropriation of \$427,500 to purchase laboratory equipment. The recommended equipment includes:

\$40,000 for two biosafety cabinets in the new Agriculture Lab being built in Boise:

\$15,000 for a laminar flow hood in the new Agriculture Lab;

\$110,000 for two autoclaves in the new Agriculture Lab:

\$30,000 for a mobile hydraulic animal necropsy table in the new Agriculture Lab;

\$17,500 for a water polishing system to provide lab quality water in the new Agriculture Lab;

\$170,000 for a new gas chromatography and mass spectrometer to analyze pesticides in the Idaho Food Quality Assurance Lab in Twin Falls; and

\$45,000 for a combustion nitrogen analyzer that is used to measure nitrogen in fertilizer samples and protein in feed samples at the Feed and Fertilizer Lab in Twin Falls.

Pest Control Deficiency Warrants

Plant Industries

The department requests \$279,000 from the General Fund to reimburse actual expenditures incurred in FY 2020 for exotic or invasive species monitoring and control including Japanese beetles, Mormon crickets, and other exotic pests. The existence of exotic or invasive pests in the state, and the lack of information about the distribution of those pests, can cause economic losses to the public by the direct effects of the pests and the placement of quarantines and import restrictions by other states and countries. These programs are carried out under the deficiency warrant authority provided in Chapters 19 and 20, Title 22, Idaho Code. FY 2020 costs included \$21,000 for exotic pest monitoring, \$182,000 for Mormon crickets, and \$76,000 for Japanese beetle treatment.

Change in Employee Compensation

For calculation purposes, agencies were directed to include the cost of a 1% salary increase for permanent and temporary employees.

Analyst Note: The department requests that approximately 120 group positions in the Agricultural Inspections Program be treated as full-time permanent employees (FTP) to reflect the health benefits for inspectors paid from the Fresh Fruit and Vegetable (FF&V) Inspection Fund. The requested adjustments have been moved to a line item to keep the changes in benefits and employee compensation decisions consistent with other agencies.

Budget by Decision Unit F

FTP General

Dedicated

Federal

Total

1. Animal Lab Technician

Animal Industries

The department requests \$58,900 to hire a lab technician using a vacant, unfunded FTP to help process additional lab samples from the new animal processing plant in Idaho. Of this request, \$31,300 is for the position's salary with \$7,200 for variable benefits and \$12,900 for health benefits, \$2,500 is in capital outlay to purchase a computer and office chair, and \$5,000 is in operating expenditures for lab supplies and sampling materials. A similar request was approved in FY 2020 to hire a technical records specialist in the Animal Health Lab (AHL). Due to the growth of the livestock industry the department has seen increased regulatory disease testing. The AHL currently has two full-time technical records specialists and one temporary part-time office specialist. This technician would assist with the estimated 1,000 additional samples per day from a new processing plant in the Magic Valley.

2. Office 365 Subscription

Governor's Recommendation

All Programs

The department requests a total of \$97,300 in ongoing operating expenditures to procure Microsoft Office 365 annual subscriptions per the direction of the Office of Information Technology Services (ITS). Traditionally, the department purchased Microsoft Office Suite with the purchase of a computer, however, guidance from ITS has shifted to a subscription per user model to provide better security. This request would purchase 286 annual licenses.

0

0

Governor's Recommendation
3. Fresh Fruit & Veg Inspectors

Agricultural Inspections

The department requests an appropriation of \$201,900 to reflect a 1% CEC and health insurance increases for the Fresh Fruit and Vegetable (FF&V) inspectors who are set up as group positions, but work year-round and generally for multiple consecutive years. These positions are non-classified, benefited, and eligible to contribute to PERSI. The average hourly pay rate for these inspectors is \$15.20, and combined they provide 10,320 hours of service to the state. Since these employees work hours as determined by the needs of the industry, many accrue compensatory time for working in excess of 40 hours a week, and effectively work year-round. The turnover in these positions is high compared to the rest of the department. However, a group of 31 of these employees have served over 10,000 hours with the state, with one individual logging 60,100 hours. Group positions do not receive funding for health insurance, but may be offered the benefit at the agency's discretion. Changes to health insurance costs are to be either found in the existing budget, or requested as a line item.

Analyst Note: Originally, the department requested this funding in the maintenance portion of the budget request, however to be consistent with how group position CEC and health benefits are calculated for other state agencies, these requests were moved by LSO to a line item. Of this amount, \$153,600 represents the health cost increases for the 120 FF&V group inspectors. The department also requests that the FF&V group inspectors receive a CEC in line with permanent positions, as historically group CEC was neither recommended by the Governor nor approved by the Legislature. The 1% CEC placeholder for these 120 inspectors is \$36,600. The department requests that any CEC appropriated for permanent employees is matched by this line item. As an example, if the permanent CEC were to be 3% and the group CEC was set at 1%, the department would request that this line item would include \$73,200, or 2%, to make up the difference between the group and permanent CEC. Lastly, the variable benefits were adjusted to correct for the true number of FTP in the program, an increase of \$11,700, which would remain static unless FTP are adjusted.
